

The City as Infrastructure (The City's Hardware)

CAMP (Shaina Anand and Ashok Sukumaran, Mumbai)

Urbanism understood as a cluster of infrastructures: physical infrastructures as well as hybrid assemblies of surveillance, support, and expression. Class discussion will revolve around public/private space, as well as the forces of traffic, migration, energy and waste that haunt the urban system, its official infrastructure, as well as unofficial and socially driven elements of dense human habitat.

Keywords: surveillance, financial networks, physical order, police, organizations, commons, internets, electricity, road, sea, cinema, communication, leak, accident, parasite, pirate, procedure, art, invention.
