Dear Chichi + Klaus

How are you and your daughter?

How is your working?

Mimi gave me the information of the Film Art Festival in Tokyo.

I was so glad that I could see your film again in Tokyo, and bought ticket for that.

However, a few days ago, unexpected matter happened and its very dangerous to continue Festival, you know the all about that event from their letter. What a pity!

I called them that they will have another chance to show the Films or not. They are planning. By chance Mrs. Iimura, who visited your home with her husband, she was by telephone and we talked about both of you. Do you remember them?

I'm working ^{as} free-lancer.

Happily busy!

I'm expecting to see your Film.

Have a nice time.

yours
miyoko
